

Sexual Harassment Hypotheticals: Chuck and Mary Sue

Chuck and Mary Sue are both custodians. They are assigned to work the same night shift in the same academic building, five nights per week. They are both supervised by the same person, Jason, who works in the administrative building. All of the custodians across campus communicate with each other, and with Jason, by using university-issued walkie-talkies that they carry with them at all times during their shifts. Each custodian must clock in and out at the administrative building before reporting to their assigned building.

Mary Sue believes that Chuck may be sexually harassing her. She relays the following facts. At what point, if any, do you believe that sexual harassment has occurred, and why?

1. Chuck asks Mary Sue out on a date after a shift. Mary Sue says no.
2. Chuck brings flowers to work and asks Mary Sue out on a date again. Mary Sue says no again.
3. Chuck asks Mary Sue out on a date over the radio. Mary Sue says no again.
4. Jason informally warns both Chuck and Mary Sue not to discuss personal matters on the radio.
5. Chuck corners Mary Sue in the break room at the beginning of shift to ask her why she won't date him, and he won't let her leave until she says yes. (She gets away.) Jason writes them both up for starting their shifts late that day.

Sexual Harassment Hypotheticals: Baldwin Hall

Hypothetical #1

Fran Yeager is a First-year student and a resident of Baldwin Hall, a co-ed, all First-year residence hall. Baldwin Hall is co-ed by room, meaning that residents are paired by the same gender identity as roommates on a hall with two single-gender bathrooms. Fran has an extremely positive body image and is comfortable walking to and from the bathroom wearing nothing but a very small towel.

Some of the male-identified residents are uncomfortable with Fran's conduct and come to Sarah Overton, the Second-year (but not sophomore) resident advisor, to request that Sarah intervene. The residents state that Fran's conduct has created a hostile environment under the Title IX Policy and they want Fran to be removed from the hall.

Questions:

- x Does Fran's conduct meet the definition of sexual harassment? Why or why not?
- x What questions would you ask to determine if Fran's conduct meets the definition of sexual harassment under your policy?

Fran is walking to the bathroom and Bryan, one of the residents, yells out, "Fran! You sexy beast! Work it!" Fran proceeds to turn toward the resident and slowly and seductively removes the towel. Fran smiles and walks to the bathroom wearing only the fuzzy slippers. Some of the other residents see Fran and, again, go to Sarah insisting that Fran be removed. They share with her that some of the residents are now using the bathrooms on other floors of the building to avoid Fran.

Questions:

- x Does Fran's conduct meet the definition of sexual harassment now? Why or why not?
- x Does Bryan's conduct meet the definition? If not, what other facts would you need?

Bryan and Fran go to a party. Both have been drinking heavily and are visibly intoxicated, but are coherent and laughing loudly in the hallway. The laughter wakes up Sarah and she opens her door to see Bryan and Fran in the hallway. She sees Bryan's hand on Fran's buttocks and overhears him saying, "Just kiss me you sexy beast!" Sarah observes Fran push Bryan away. Fran walks unsteadily past Sarah to exit the hall. Sarah observes that Fran appears to be "upset" and the next day confirms that Fran was angry with Bryan for "making a move."

Questions:

Hypothetical #2

- x If Max does not want to move forward with a formal investigation, do your policies permit that to happen under these circumstances? What are your tests or considerations in determining whether or not the case would move forward with a formal investigation?

- x Assuming that your policy covers harassment on the basis of gender identity, are these facts sufficient to create a hostile environment? If not, why not? If so, why?

Is the Playwright Discriminating?

Professor Gene O'Neill is a well-regarded scholar and playwright at your institution. He is a respected teacher and for the last 25 years has received nothing but exceptional feedback from his students. He is well connected to the Broadway community and runs an intensive two-week summer class in New York City. Students vie to get into this intensive program because of the opportunities it provides to interact with playwrights and performers.

Professor O'Neill is scrupulous about gender balance in his class. He works with the Registrar to ensure that all genders are well represented in his classes.

In recent years, Professor O'Neill has decided to not meet alone with female students without his office door being open. His colleagues have noted that he is uncomfortable in social settings with female students. They have commented that he appears to make sure that he is never alone with female students in social settings (e.g. departmental functions, dinners during the New York trip, etc.).

Incapacitation Scenario

Our scenario facts have been established as indicated below. For purposes of this scenario, you may assume that each drink constitutes one standard serving of alcohol.

Definition #1:

Coercion is compelling another individual to participate in sexual activity in a manner that makes the participation involuntary. Consent for sexual activity must be clear, knowing, and voluntary. The reasonable person standard is used to establish whether participation was voluntary. Coercion contains a wide range of behaviors which override the voluntary nature of participation. Such acts include, but are not limited to, threatening to disclose personal sexual information, or threatening to harm oneself if the other party does not engage in the sexual activity. how I never listened and was always late. When I tried to respond, Charlie started playing with a phone. I got mad because Charlie was accusing me of not listening, but now Charlie wasn't listening. I told Charlie it was time to head back to the car, and we didn't talk most of the way back. Once we got to the residence hall, I wasn't in the mood to talk anymore so I pulled up outside the door and said "Good night." Charlie said, "Figures you don't want to talk. You don't want to hear anything bad about yourself. Why do I keep dating you? I think it's time for me to leave." Then I felt guilty for brushing Charlie off, so I said, "Oh, don't be like that. Let's talk after your exam," and leaned over to kiss Charlie good night. Charlie leaned away from me so I missed the kiss, then got out of the car. Later I snapped Charlie, "I love you. I'm sorry. Let's talk tomorrow." The next day, I was waiting for Charlie outside the exam room and we talked it through. There's no way I bruised Charlie's arm. If I touched Charlie's arm, it was just to get my balance when I leaned over for the kiss.

Whitney's story

Charlie lives next door to me, and we have bio together. Charlie came home around midnight the night before our exam in a huff. Charlie had borrowed my winter coat for a date and stopped by to drop it off. I asked Charlie what was wrong. Charlie told me about an argument with Jesse and said that the relationship was getting to be too much. I told Charlie to get some sleep for the exam tomorrow, and Charlie left, talking about wanting to gorge on chocolate and go to bed. The next day, Jesse was waiting for Charlie outside the exam room. I never saw any bruises on Charlie's arm. I left for home a few days later.

Other information

- x Security footage shows the car pulling up to the residence hall at 11:44 p.m. and Charlie exiting approximately one minute later. The camera can't see the inside of the car.
- x Card swipes show Charlie entered the residence hall at 11:45 p.m., then again at 12:08 a.m. through a different door; security footage could not be obtained for the later swipe.

Questions for discussion:

- x Do you believe that Jesse grabbed Charlie's arm? Why or why not?
- x Do you believe that Jesse bruised Charlie's arm? Why or why not?
- x Did Jesse violate the policy regarding IPV? Why or why not?
